He is survived by one son, Wilbur, residing on the home farm, one grandchild and one brother, Parker Galbreath, of Lisbon and one sister, Mrs. Abbie Anglemeyer, of Columbiana. His wife died two years ago.

PETER'S POLISHED PARAGRAPHS

Owing to the H. C. L. there was a strike for higher wages in the rubber plant last week. The company sent to Columbiana for tire building machines and had the tires built by day laborers.

Easter millinery is already out and the ladies present an attractive appearance.

The outlook for fruit this season is said to be very poor. Last year's apples are still on the market.

All outgoing and incoming mails in Ohio are being weighed. It costs more per ton to carry the mail than it does for express matter.

Celery, the clothing man, has shipped his goods to New Philadelphia and B. E. Pollock, the groceryman, sold his goods piecemeal and will return to East Liverpool. Too much business.

"One more unfortunate," a middle aged man, name unknown, was found along the railroad track near Bergholz, Friday night. The name of R. D. Coleman, Carrollton, O., was found upon the coat collar. Every one revealed the fact that Mr. Coleman had given a tramp the coat a year or more ago, but didn't know his name.

The business section of Bowerton was destroyed by fire last week Tuesday, entailing a loss of several thousand dollars. Just 46 years ago Bowerton had a similar fire.

Owing to a cold in my head and the threatened railroad strike I did not get into print last week, and I am pleased to state that I am now better and glad that the strike did not materialize. Strikes are the best non-violent way to get what you want.

Pomona grange held a well attended meeting in the court room last Saturday. Farmers of Carroll county are awaking to the fact that organization is the right thing to do.

The meeting was held in the court room last Saturday for the annual July picnic on the fair grounds and for the fair exhibit.

Uncle Sam is in a "triple alliance" with two other governments—England and Russia. This is why we are engaged in the present European war.

The type of which the present German empire is the antitype. The Germans are a religious and a God-fearing people; they gave Protestantism to the world; they gave the printing press, through which the bible was spread to all nations, and the royal family has for their motto "God with Us" (God is with us), through which they are enabled to say "Deutschland über alles in der Welt" (Germany over all things in the world). A few years ago Ballington Booth and the leaders of the Salvation Army visited Berlin, and after a week's stay in that well regulated city they said that they could not improve upon its religious or its moral, and called for America where they found follow ground for their missionary work. We are a missionary people, in that we want every body to think and believe as we do.

We are taught to believe that every body who is sent to congress or a state legislature is a statesman, a scholar and a gentleman. A map of the United States, showing the different nationalities located in each state, shows that the German are in the lead in all the states. Carrollton was laid out by a German, and the only Revolutionary soldier buried in our cemetery was a German named Samuel Bushong who came over from Hesse Darmstadt, Germany, and fought with the British for the American colonists. A canvas of this village shows 75 per cent of German names. The Albright pottery, the Arbough and the Butler furniture stores, the Saltzman bank, the Helfrich jewelry store, the Standard printing office by the Kemerer brothers, the Vashbinder store, the Shultz laundry, the Hosterman family who operate our toy factory, and the many other smaller enterprises of the village, all show German origin. The oldest house now standing in Carrollton and the best structures more recently built were erected by Germans, whose mother tongue is taught in our high school. Many Germans enlisted in the Northern army during the Rebellion of 1861-5. None of the Allied countries were represented in that war excepting one Englishman who afterwards refused to England and continued to draw a good pension from this country until he died. Last Thursday night a clergyman from Cleveland gave a travelogue lecture with stereoscopic pictures to a good-sized audience in the Reformed church. Pictures of the cities, mountains and lakes of Switzerland were thrown upon a white curtain. Zurich, Berne, Lausanne and other localities made famous by Zwingle during the Reformation of 1600 years ago were shown. And pictures of Berlin, Heidelberg, Wittenberg, the Wartburg, Worms, and other localities so dear to the heart of every Lutheran, were thrown upon the screen. Also pictures of the larger cities of Germany with their paved and well kept avenues, their large libraries, art galleries and historic churches. The lecture and entertainment lasted two hours, and owing to the present world war, the audience was both pleased and entertained. The munitions factories in the United States have prolonged the war in Europe, and when their death dealing implements came in contact with submarines, the factories sent a howl to Uncle Sam. These munitions are not made by our government but their shipment on vessels of and for the allies is clearly against President Wilson's orders in the early part of the war to remain "neutral"—and when contraband goods are not shipped with U. S. citizens on board the U-boat war will cease. How will Germany treat her enemies on this side of the Atlantic if they go in warships and violate their neutrality? We have no merchant marine, and even our mails are carried on foreign bottoms. It surely is the common sense of us to have vessels sunk that are loaded with war material and owned by the allies, yet I notice that Uncle Sam is insuring these private ships. Then why not insure school houses and farm property? Rev. J. A. Brown of the Church of Christ preached an interesting sermon Sunday night on the "Benefits of the World's War," taking his text from Mark 12, 37—"And the common people heard him gladly." Of course he spoke from a preacher's standpoint, yet threw in the idea of the fear of Russia attacking his throne and the common people now holding the reins of government, and hoped that eventually the entire world would govern themselves without crowns. This was a mere dream, backed by desire rather than exact knowledge of existing conditions. Law and justice must be enforced by human agencies.
